If the fifty and four compremise is accepted the result will be as follows: Suppose that a citizen is the owner of a State bond calling or \$1000, with six per cent. interest, or \$60 year; he will receive a new bond for \$500, with four per cent. interest, or \$20 a year. Thus it will be seen that the proposed compromise simply means to reduce the principal of the State debt onehalf, and to reduce the present rate of interest two-thirds. In other words, the State, after the debt is adjusted, will owe only onehalf of the present debt, with the interest accumulating at two-thirds less than the

Being the only refugees in the town, we are necessarily closely observed, and any complaint on our part would excite alarm; therefore we have to be well. The town is without a case of ickness of any kind; the crops surpass any have ever seen in all my travels; the people are prosperous and happy, and not like the poor, unfortunate Memphians who, nolens rolens, are driven from home, sometimes upon an uncharitable community-yea, and characterized as paupers, as by the health officer in St. Louis. The people of St. Louis had thousands to succer the negroes who voluntarily abandoned their employers, and the farms of the south at the bidding of Republican politicians, and went seeking omes in the bleak northwest to increase the electoral representation in Republican States and diminish the same in Democratic States but "the paupers of Memphis, fleeing from death, must take care of themselves." This sentiment, I trust, is not indorsed by any except the author, whose soul, no doubt, coul ance a hornpipe in the hull of a mustard seed. To break the monotony of our lonely life we attended an old-fashioned barbeque and bran-dance, on Thursday last, in Dickinson's woods. Over one thousand of the tarmers, their daughters and sons, of Otion, were there. The dancing was very lively, dinner good and speaking in abundance Senator Sharon, Representative Jones, Mayor Bonner and Captain D. D. Bell made eloquent speeches, all in favor of the com-promise. Special Dispatch to the Globe-Democrat. CHICAGO, August 4 .- A genuine case yellow fever, resulting in the death of the patient, has been developed in this city. A week ago Friday Frank Victory, a man of fifty-three years, came from Memphis to the house of his son-in-law, George W. Cun-ningham, 224 Jefferson street. On Sunday July 27th, Victory was taken with symptoms of the dread disease, which grew more and more marked until death ensued Sunday morning. Several doctors were called dur ing the week, and all agreed that the sickness was yellow-fever in as bad a form as possible. The entire neighborhood is alarmed and indignant that the board of health has not taken some action. The remains were laid on ice until this morning, when preparations were made for the funeral services; which were held at twelve o'clock. Dr. Goldspohn, 262 South Halstead street, who

had been called to see Victory at almost the latest hour of his sickness, was called upon this morning for an official utter-ance in the case. He said that not being summoned in the first stages, he could not, of course, give as clear a diagnosis as would have otherwise been possible, but from all appearances and particulars he believed it to be a case of the real Memphis epidemic. He had notified the hoard of health immediately. and was surprised that up to nine o'clock this morning it had not taken steps to thoroughly disinfect the house and furnishings, an would at once see that they did so. The doctor had immediately after the death of the patient done all in his power to purify the apartments. No danger from any spread was apprehended in the least, the fever coming from atmospheric poisoning and not contagion. The health officers say that it was only severe case of bilious intermittent fever Dr. Dunn and other physicians pronounced i the latter, which was the disease specified on

the regular death certificate. YELLOW-FEVER NOTES. Mr. Miles Owen was lying very low last Mr. Bob Webb was reported as a yellowfever case yesterday. Mr. J. C. RICHARDSON, St. Louis. My Dear Sir:—
I have sold Chifford's Febrifuge since its introduced tion in Central Texas, in fact I may say I introduced it in Milam County. It has given uniformly good satisfaction, and its merits are constantly recommending it from clitzen to clitzen in the speedy and effective cure of Intermittent Fever, (Fever and Ague.), and Fevers of Malarial Origin. I am always pleased to sell Clifford's Febrifuge on account of its efficiency, knowing it will not disappoint my customers, and being so palatable, makes it the most pleasant remedy for the cure of Chilis and Fever.

When through the influence of Mr. Ballard we were induced to try your Clifford's Febrifuge the effect was wonderful.
